Aluminum Signs

Aluminum signs are a great-looking, affordable option. With full digital printing and overlaminates, these signs will look wonderful while also staying weather resistant. We also offer them as aluminum pan signs which come with a sturdy outer frame to add that extra touch of quality and resilience. Use our aluminum signs in just about any outdoor or indoor situation for a statement that's sure to last.

- Our full-color digital printing means you can have anything printed right on the surface of your aluminum sign in vibrant color. Your imagination is the limit.
- Don't worry about your sign being outdoors. We provide a tough overlaminate that will protect your sign against sun and scratches so it can stand the test of time.
- Whether you need your sign hanging from a bracket, placed on a pole, or mounted on a building wall, our aluminum signs are a lightweight, versatile choice that can go almost anywhere.
- Need extra visibility? We can use a special reflective vinyl on the surface of your aluminum signs so that they'll shine even in night-time and low-light conditions, for extra safety measures.
- Our rectangular aluminum pan signs come with a solid aluminum frame around the outside for additional stability and quality.
- For our regular aluminum signs, we can shape the edge any way you desire. Anything from the standard rounded rectangle of a parking sign to a totally custom edge is possible.

Our aluminum signs are perfect for everything from general road signage to the new face of your storefront. Our full design, manufacturing, and installation services will help you bring your sign to life without needing to work with multiple companies. Ask us today about how one of our signs would be perfect for you.

A pole-mounted aluminum sign with custom-cut edge.

The popular wall-mounted aluminum pan sign.

Hanging rider panels are also an option.

Also popular, a perpendicular pan sign.
